General Message

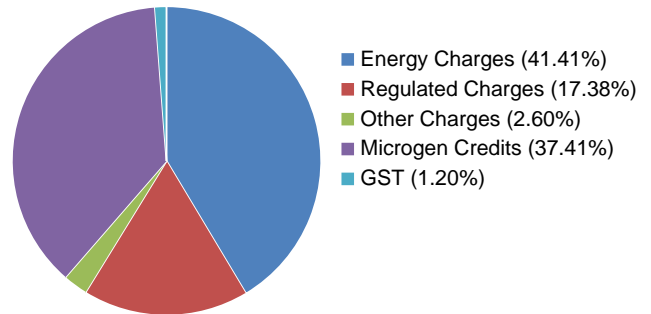

Happy April! As we welcome the vibrant blooms of spring, we have important news regarding your energy billing.

The carbon tax on natural gas has been removed, effective April 1st. However, please note that your April invoice, reflecting March consumption, will still include the carbon tax calculation as this change takes effect starting from April's consumption.

We understand that changes in billing can be confusing, and our team is here to help clarify any questions you have. This adjustment should positively impact your future bills, reducing your overall costs as we move into warmer months.

Thank you for your understanding. As always, don't hesitate to reach out if you have any questions about your invoice or our services. Here's to a beautiful and economically savvy spring!

Percent Allocation of Current Invoice
